

THE PENNSYLVANIA STATE UNIVERSITY Professional Accreditation

As part of the accreditation process, Middle States Commission on Higher Education (MSCHE) members and candidate institutions are required to annually complete an Institutional Profile (IP). The IP offers a snapshot of an institution's structure, operations, finances, and accreditation status, and also assists with monitoring an institution's compliance with selected aspects of accreditation standards.

On the following pages is a listing by campus of all the national, regional or specialized program accreditations for the University. The listing includes the initial date the program was accredited, the last review date and next review date.
