

# **WebLion: Content Management for Penn State**

## **Introduction to WebLion**

**WebLion is an integrated set of open source content management applications**

## **WebLion Version 0.8 Update**

**This pre-release version of WebLion includes flexible AD54-compliant page templates and search engine widget, and an integrated kerberos authentication.**

## **WebLion Version 1.0 Update**

**This version of WebLion includes version 0.8 products updated for version 2.1 of Plone - a major update. Also planned for this release are PDA content views and a WML site, Wiki and Blog products, and some web services interfaces.**
